OTHER SERVICES

In 2018, we began working with one of the largest media groups in the world, Dentsu Aegis Network. With the objective of helping them hire for their Graduate Rotational Scheme, our solution was to build a bespoke microsite in order to promote the opportunity to our vast database and wider student network.

Throughout the year, we continued to partner with **15 university student societies**, helping brands to advertise their opportunities to our network of **25,000 current students**.
